

Curriculum Vitae (CV)

Mr. Einstein Nyandieka Mokuu

Bachelors Student, Mechatronics Engineering, Jomo Kenyatta University of Agriculture and Technology.

I am a mechatronics engineering student, equipped with practical skills and theoretical knowledge. Throughout my studies, I have conducted various practical tests and compared them with their theoretical counterparts. I possess a keen sense of observation, carefully noting the changes that occur during experiments and analyzing the underlying reasons behind them. I am proficient in recording data in laboratory settings and compiling detailed reports based on the practical experiments conducted. Collaborating effectively with fellow students, I actively participate in scientific research and take responsibility for my assigned tasks in the workplace.

Two important values that I uphold are integrity and accountability. These values form the foundation of my work ethic, enabling me to foster and lead cohesive teams. I strive to achieve set goals within specified timeframes.

In addition to my engineering background, I have expanded my skill set by completing a data science course. As a result, I am proficient in handling big data, utilizing SQL, implementing machine learning algorithms, and programming in Python and R.

Moreover, I have gained valuable experience through my involvement with AIESEC, which has equipped me with essential skills necessary for effective teamwork and intercultural communication.

Furthermore, I possess driving experience and have a valid driver's license.

Lastly, I have honed my computer skills by successfully completing an ICDL (International Computer Driving License) course, demonstrating proficiency in various computer applications and modules.

Overall, I am a dedicated and well-rounded individual, eager to apply my diverse skill set and knowledge in a professional setting.
